The Prairie State College Surgical Technology program prepares students to work as surgical technologists in a variety of surgical settings, and is based on a curriculum recommended by the Association of Surgical Technologists. Surgical technologists shoulder major responsibility in ensuring that operating rooms are safe and that equipment functions properly.

**Surgical Technology-Certificate**

The program meets national standards for surgical technology and has been approved by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Graduates may sit for the surgical technologist national certificate exam administered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA).
