Vendor may be asked to demonstrate ownership and operation of these components of prepress and operation of these components of prepress and printed services before the bid is awarded. The purpose of this consideration is to ensure quality and service control related to key aspects of the printing process; for example the prep and production of 8-color covers from prepress to printing. If a vendor subcontracts printing for the Heatset cover, the subcontracted vendor must also meet the above criteria. Print Brokers will be considered, providing their printers meet the above bid criteria.
