C. The Zero Tolerance Law provides that minors can have their driving privileges suspended even if they're not intoxicated at the .08 level. The following table shows the length of time your driving privileges may be suspended under the Zero Tolerance Law (for BAC of .01 or greater) and DUI Laws (for BAC of .08 or greater). The loss of driving privileges is greater if you refuse to take a sobriety test.

D.

	Under Zero Tolerance Law		Under DUI Laws	
		If test refused		If test refused
1 st violation	3 months	6 months	6 months	12 months
2 nd violation	1 year	2 years	1 year	3 years

Effect on Driving Record

- Zero tolerance (BAC of .01 or greater) – except during suspension period, not on public driving record as long as there is no subsequent suspension.
- DUI conviction (BAC of .08 or greater) – Permanently on public driving record

Under certain conditions, you may be charged with DUI even though your blood alcohol level is below .08.

Except during suspension period, violation is not on public driving record as long as there is no subsequent suspension permanently on public driving record.
