Why Study Abroad?

Here are a Few Reasons:

Study abroad programs give students a chance to travel during college and PSC offers a variety of programs to help you make the most of your undergraduate experience.

- **Learn about another culture** – By living in another country, you’ll have the opportunity to learn the aspects of that country.
- **Learn another language** – Learning a second language is easier when studying it in its native country. There are also additional languages you can learn that are not available at PSC.
- **Enhance your résumé** – Studying abroad will set you apart from other applicants because it shows that you are adaptable to new situations and adventurous.
- **Earn credit** – Take classes in another country that will count towards your degree. You can learn about Shakespeare in England or study Buddhism in China.
- **Travel** – Studying abroad during college is cheaper than traveling after you graduate.
- **Learn about your own culture** – You can reflect on your own culture as you interact with people from different backgrounds.
- **Make friends** – You can make lifelong friends around the world!
