## Adding Images

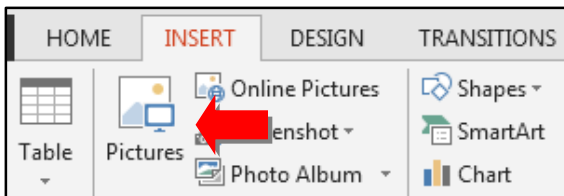

PowerPoint 2013 lets you add pictures, clip art, screenshots, and shapes to your document.

### Insert a Picture

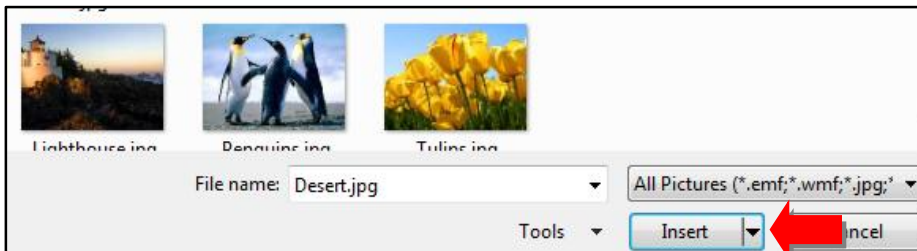

1. Select the **Insert** tab.

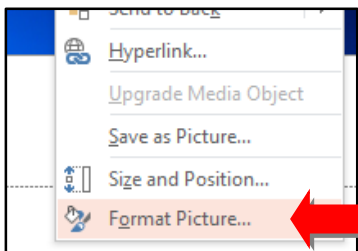

2. Select **Pictures**.

3. Locate the picture you want to insert and click **Insert**.

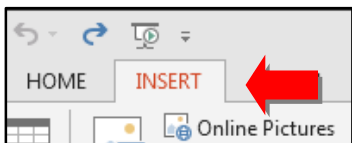

4. To change any of the picture properties, right-click on the image and select **Format Picture**.

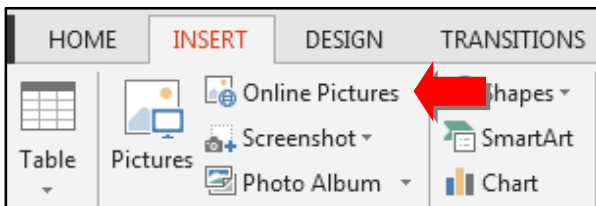

## Insert Clip Art

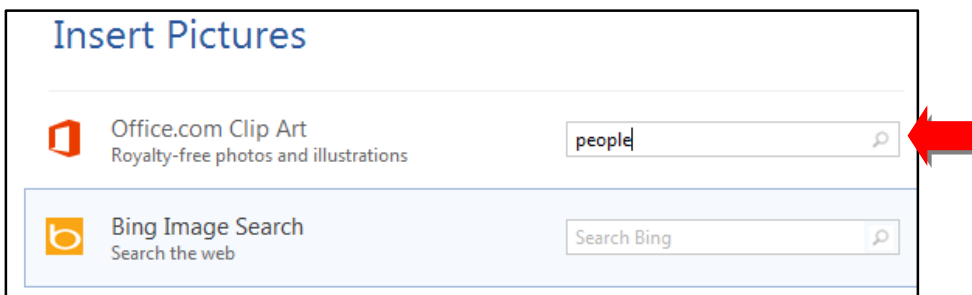

1. Select the **Insert** tab.

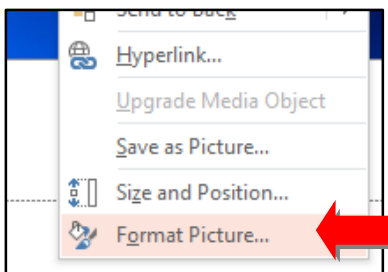

2. Select **Online Pictures**.

3. Enter a word to search for clip art and click the search icon.

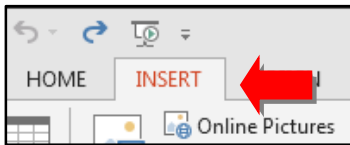

4. When the secure content warning appears, click **No** or you will not see any results.
5. Click on the image you want to use then click **Insert**.
6. To change any of the other clip art properties, right-click on the image and select **Format Picture**.

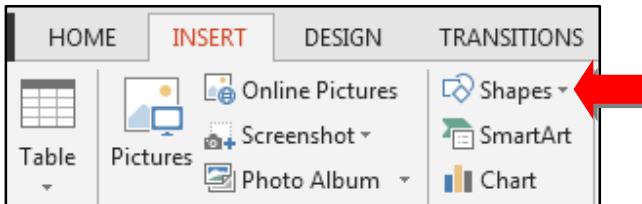

## Insert a Shape

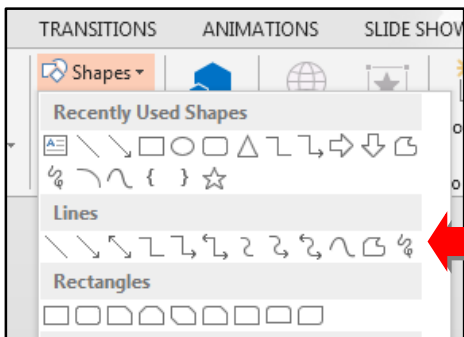

1. Select the **Insert** tab.

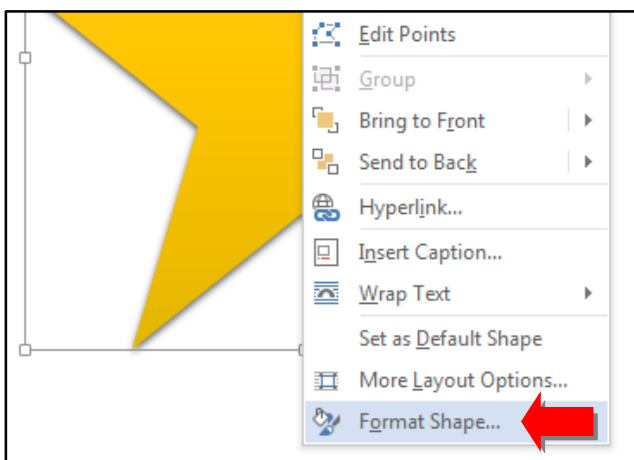

2. Select **Shapes**.

3. Click on the shape you want to use.

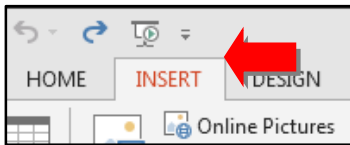

4. Click and drag on the screen to draw the shape.
5. To change any of the auto shape properties, right-click on the image and select **Format Shape**.

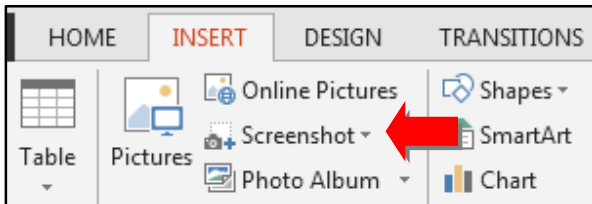

---

## Insert a Screenshot

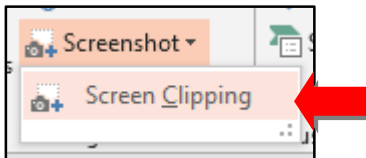

1. Select the **Insert** tab.

2. Select **Screenshot**.

3. Select **Screen Clipping**.

4. Click and drag the cursor around the section of the screen you want to capture.
5. The screen clipping will appear on the current slide.
