

Adding Video

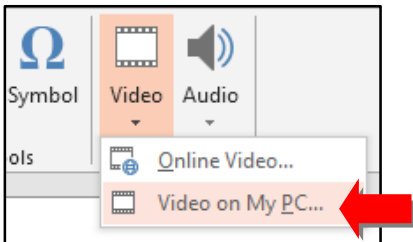

1. Select the **Insert** tab.

2. Select **Video**.

3. Select **Video from File**.

4. Locate your video and click **Insert**.

Note: Your video file must be in the same place as your PowerPoint file in order for the video to work.

5. The video will appear on the slide with playback controls. You can resize the video if you would like it to be larger or smaller than the default size.
