

Watermarks

In PowerPoint 2013 you can add a watermark to your presentation.

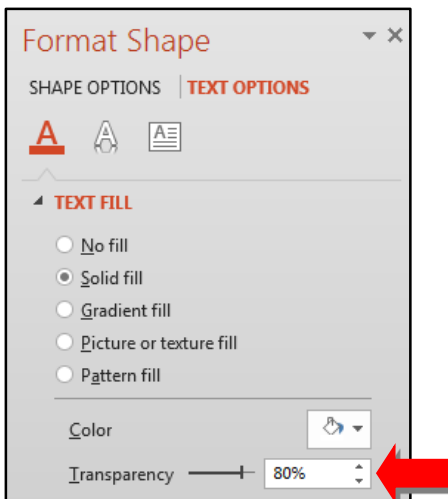

1. Select the **View** tab.
2. Select **Slide Master** then the slide where you want the watermark.
3. Select the **Insert** tab.
4. Select **Text box** then draw a large text box on the slide.
5. Enter the text you want for the watermark.
6. Select the text and change the font size to around 200-300.
7. Select the rotate handle then drag left to angle the text.

8. On the **Home** tab, use the options in **Paragraph** to center the text in the text box.

9. Select the text and right-click to select **Format Text Effects**.
10. Under **Text Fill**, set the **Transparency** to around 80%.

11. Select the text box and right-click to select **Send to Back**.
