

### Styles

#### Using Styles

1. On the **Home** tab, select a style from the preformatted **Styles**.

2. To create a new style:
  - a. Format the text then select **Create a Style** from the Styles options.

- b. Enter a name for the new style.
- c. To make any other adjustments to the style, select **Modify**.
- d. Select **OK**.

#### Collapsible Headings

This feature only works in Word 2013 and only if Styles have been used in the document.

1. Select a heading.
2. Right-click and select **Expand/Collapse**.

3. Select **Collapse All Headings** or **Expand All Headings**.

4. To expand or collapse a section, select the triangle next to the heading.

**Note:** When printing, only content under expanded headings will print.
