

Alternative Presentation Formats

If you want to create a presentation using something other than PowerPoint, try one of the sites below.

- **Emaze** (www.emaze.com)
Free, cloud-based presentation website. Emaze lets you pick a template, add your information and you are ready to present. Access Emaze from anywhere you have an Internet connection.
- **Empressr** (www.empressr.com)
Free, cloud-based presentation website. Empressr lets you pick a template, add video, audio, images and presentations. Access Empressr from anywhere you have an Internet connection.
- **PowToon** (www.powtoon.com)
Free, cloud-based website to create animated videos and presentations. Once you are done creating your presentation, you can download the video or upload it to YouTube.
- **Prezi** (www.prezi.com)
Free, cloud-based presentation website. Uses one large canvas with scroll and zoom features to move around. Start with a template or blank presentation then add your text, images and video. Download the presentation or access Prezi from anywhere you have an Internet connection.
- **Slideshare** (www.slideshare.net)
Free, cloud-based presentation website. Upload and share presentations, infographics, documents, videos, PDFs and webinars. Ability to share presentations with social media sites such as LinkedIn, Facebook, Twitter and more.
