

## COMMUNICATION DISORDERS MAJORS (Suggested Associate in Arts Degree Curriculum)

This worksheet is designed to help students select courses which are likely to apply to a major in **COMMUNICATION DISORDERS**. These suggested courses satisfy requirements in the Associate in Arts Degree program at Prairie State College and provide the basis for transferring to a four-year institution. This program meets the guidelines of the **IAI (Illinois Articulation Initiative) General Education Core**. Students should obtain a copy of the Prairie State College **Associate in Arts Degree Worksheet** and should visit the IAI website at [www.iTransfer.org](http://www.iTransfer.org) for more information.

The undergraduate program in communication disorders is a pre-professional program designed to prepare students for graduate work in communication disorders. A master's degree in this field is needed to meet the licensure and certification standards required by the American Speech-Language-Hearing Association and the State of Illinois. Admission to the bachelor and masters degree programs is very competitive. Speech-language pathologists and audiologists practice their professions in a variety of settings including hospitals, rehabilitation centers, private practice, and public and private schools.
