

Changing the Desktop Wallpaper

1. Select the Start icon.

2. Select **Settings**.

3. Select **Personalization**.

4. Select **Background**.

5. Under **Choose your picture**, select one of the default images or click on **Browse** to locate your own picture.

Note: Your pictures should be stored on your P:/ drive.

6. Choose a fit such as **Fill**, **Fit**, **Stretch**, or **Tile**.

7. The changes will be updated as you make them.
8. Close the Settings window when done.
