

Employee Flowchart Protocol for COVID-19 Reporting and Return to Work

The following of the Building Access Guidelines along with temperature checks are in place for controlling the spread of COVID-19 and required to gain access to campus.

Charmaine Sevier, HR Director
csevier@prairiestate.edu

Susie Perez, HR Generalist
sperez@prairiestate.edu

IMPORTANT NOTES:

*For COVID-19, a close contact is defined as individual exposures added together over a 24-hour period (e.g., three 5 minute exposures for a total of 15 minutes), and includes 15 cumulative minutes of exposure at a distance of six (6) feet or less of an infected person starting from two (2) days before illness onset (or, for asymptomatic patients, two (2) days prior to positive specimen collection) until the time the patient is isolated.

This protocol was developed in keeping with guidance from the Centers for Disease Control and Prevention and the Illinois Department of Public Health. Protocols are subject to change and may vary.

Quarantine days differ from column 1 to columns 2 and 3 because of positive testing for COVID-19 verification in columns 2 and 3.
